## Introductory Information

The *South Carolina College- and Career-Ready Standards for English Language Arts (ELA) 2015* are the result of a process designed to identify, evaluate, synthesize, and create the most high-quality, rigorous standards for South Carolina’s students. The standards are designed to ensure that South Carolina students are prepared to enter and succeed in economically viable career opportunities or postsecondary education and ensuing careers.

## Standards Process

These standards were created through a collaborative process by a writing team selected from applications submitted by interested educators consisting of current and retired South Carolina classroom teachers, instructional coaches, district leaders, higher education faculty members, and educators who specialize in working with English Language Learners, special education, career and technology education, and assessment. The purpose of the standards process was to design college- and career-ready standards that would ensure that students who complete high school in South Carolina are ready for college and careers. The process was designed to identify or create the clearest, most rigorous, and best-aligned ELA standards.

## History

Act 200, ratified on June 6, 2014, required the SCDE to facilitate the process of developing new high quality, college- and career-ready standards for implementation during the 2015-16 school year. During the fall of 2014, the SCDE convened an ELA Writing Team comprised of K-12 educators and representatives from higher education. The writing of the draft standards, keeping the needs of South Carolina students and educators in mind, began with the review of a number of resources, which included the 2014 ACT College and Career Readiness Standards; the Common Core State Standards for English Language Arts (CCSS); college- and career-ready standards from other states including Indiana, Nebraska, and Texas; the *South Carolina Academic Standards for English Language Arts 2008* which reference the 2001 Massachusetts standards; test specifications for the SAT; and the National Council of Teachers of English (NCTE)/International Reading Association (IRA) Standards.

The ELA Writing Team then conceptualized what students who graduate from South Carolina’s public education system should demonstrate. This document, *South Carolina Portrait of a College- and Career-Ready English Language Arts Student*, [see page 11] served as the foundation and compass that guided the Writing Team’s determination of the components of the standards. *The Profile of the South Carolina Graduate* [see page 10], adopted by The State Board of Education and The Education Oversight Committee, supports the standards.

Using the portrait as a “touchstone,” the K-12 strands of Inquiry-Based Literacy, Reading-Literary Text, Reading-Informational Text, Writing, and Communication were crafted. Each strand consists of standards, which contain the same language for kindergarten through high school; grade level or course specificity is provided by indicators. A graphic representation of the organizational structure is presented on page 11.

The document also explains the *South Carolina Innovations*: Inquiry-Based Literacy Standards; Disciplinary Literacy; and the Fundamentals of Reading, Writing, and Communication. These serve as underpinnings of what must be in place in classrooms for students to become proficient readers, writers, and communicators regardless of grade level. Disciplinary Literacy and the Fundamentals of Reading, Writing, and

Communication **are not standards**, therefore, they **are not assessed**; however, they are **essential for successful implementation** of the new standards and are a critical component of the document. Each is explained in detail on subsequent pages.

## Public Comment and Review Period

The draft college- and career-ready standards were posted online for public review on November 6, 2014. The public was invited to provide comment via an online survey until November 30, 2014. Over 2200 public review surveys were submitted. Simultaneously, the SCDE convened a Task Force, consisting of parents, business and community leaders, higher education professionals, and special education teachers, which also provided written feedback.

The Education Oversight Committee (EOC) convened a review panel of 25 educators, business and community members, and higher education faculty to review the draft standards. The EOC review panel submitted a report to the SCDE, which included recommendations for revisions to the draft standards. The standards writing process continued as the comments from the online public review survey, the SCDE Task Force, and the EOC Review Panel were compiled, reviewed, and used by the Writing Team to make revisions and edits to the draft standards.

A joint meeting was held with representatives from the SCDE Writing Team, the EOC Review Panel, higher education, the business community, and the State Board of Education (SBE) to further discuss the implementation of the recommendations. Further revisions were made to the draft document as a result of this meeting.

## Reconvening of the Writing Team

The ELA Writing Team reconvened on December 1, 2014, and was tasked with incorporating feedback from all sources to revise and edit the draft standards ensuring they were aligned across grade levels and showed appropriate progression from grade to grade. The Writing Team was also tasked with editing and revising standards for clarity, elimination of wordiness, and any other significant public comments or factors. The revised draft standards were then submitted to Senior Staff at the SCDE and the SBE for approval.

## Support Documents

In order to ensure the appropriate understanding and effective implementation of the *South Carolina College- and Career Ready English Language Arts Standards 2015*, support documents will be developed. Initial components of the support documents will include a glossary, vertical articulation documents, Depth of Knowledge (DOK) and Bloom's levels, and a correlation/crosswalk document. Additional support documents will be developed as needed.

## South Carolina Innovations

The following research-based practices and processes serve as the underpinnings of what must be in place in classrooms for students to become proficient readers, writers, and communicators. These components are essential for successful implementation of the new South Carolina standards. These essential practices and processes contain the same language for each grade level or course due to their universal nature. They are included within the text of this document to illuminate the connection between these practices and the standards. Support documents and professional development will be provided to further support educators' understanding.

### Inquiry-Based Literacy Standards

The Inquiry-Based Literacy Standards support teachers in structuring a classroom environment in which students can routinely and systematically engage in the process of inquiry. Students individually and collaboratively engage and interact with content to become curious, self-regulated, reflective learners. The Inquiry-Based Literacy Standards should be infused within and across all content areas and disciplines and are the responsibility of the entire school community. These standards work in concert with Disciplinary Literacy and should be viewed as a system or structure which supports student learning rather than being perceived as steps which lead to the development of a one-time research paper or project.

The Inquiry-Based Literacy Standards are listed below and are also included in each grade band or course standards section:

- **Formulate relevant, self-generated questions based on interests and/or needs that can be investigated.**
- **Transact with texts to formulate questions, propose explanations, and consider alternative views and multiple perspectives.**
- **Construct knowledge, applying disciplinary concepts and tools, to build deeper understanding of the world through exploration, collaboration, and analysis.**
- **Synthesize integrated information to share learning and/or take action.**
- **Reflect throughout the inquiry process to assess metacognition, broaden understanding, and guide actions, both individually and collaboratively.**

**Additional information and elaboration of the Inquiry-Based Literacy Standards will be included in a support document.**

## Disciplinary Literacy

Reading, writing, communicating, thinking critically, and performing in meaningful, relevant ways within and across disciplines are essential practices for accessing and deeply understanding content. Immersion in the language and thinking processes of each discipline guides students to develop and cultivate a deeper understanding of particular disciplines.

College- and career-ready students must be able to expertly navigate curriculum, paying close attention to practices unique to a particular discipline. Disciplinary Literacy works in concert with Inquiry-Based Literacy Standards to prepare students for the demands of the 21<sup>st</sup> century. These practices also offer opportunities for students to demonstrate their understanding of the content in traditional and non-traditional ways.

The *South Carolina College- and Career-Ready Standards for English Language Arts 2015* include the Disciplinary Literacy practices listed below:

- **Read, write, and communicate using knowledge of a particular discipline.**
- **Integrate the Reading, Writing, and Communication Standards and the Inquiry-Based Literacy Standards to communicate and create understanding within content areas.**
- **Extend and deepen understanding of content through purposeful, authentic, real-world tasks to show understanding and integration of content within and across disciplines.**

*Additional information and elaboration for Disciplinary Literacy will be included in a support document.*

## Fundamentals of Reading, Writing, and Communication

The Fundamentals of Reading, Writing, and Communication delineate the underlying assumptions of the processes students must use and integrate to become successful and proficient readers, writers, and communicators, regardless of their grade level or course placement. Through these processes, students apply strategies as they read, write, and communicate. As students use these processes with automaticity, they more successfully navigate new and more challenging content and tasks.

Teachers at all grade levels and in all disciplines should refer to the Fundamentals when determining what students use or neglect as they read, write, and communicate. Engagement increases as students take ownership of their learning through personal understanding and implementation of the reading, writing, and communication processes.

The Fundamentals for each strand, **while not assessed**, are an integral part of the *South Carolina College- and Career-Ready English Language Arts Standards 2015* and are listed below, as well as at the beginning of each grade band or course section.

## Fundamentals of Reading

- Integrate an information (cueing) system that includes meaning (semantics), structure (syntax), visual (graphophonic), and pragmatics (schematic) to make meaning from text.
- Gain understanding by applying reading strategies of monitoring, searching, confirming, cross-checking, rereading, and self-correcting.
- Employ comprehension strategies before, during, and after reading text using schema, annotating, questioning, visualizing, drawing inferences, determining importance, summarizing, and synthesizing.
- Use metacognition to monitor meaning and adjust strategies while reading.
- Notice and analyze an author's style and techniques to construct meaning.

## Fundamentals of Writing

- Employ a recursive writing process that includes planning, drafting, revising, editing, rewriting, publishing, and reflecting.
- Interact and collaborate with peers and adults to develop and strengthen writing.
- Produce writing in which the development, organization, and style are appropriate to task, purpose, discipline, and audience.
- Use clear and coherent written language to accomplish a purpose such as learning, enjoyment, argument, and the exchange of information.
- Monitor progress throughout the writing process and adjust strategies as needed from independence to collaboration within a writing community.
- Incorporate authors' craft techniques observed from wide reading of anchor and mentor texts across disciplines to inform, explain, convince/argue, and entertain.

## Fundamentals of Communication

- Employ a reciprocal communication process that includes planning, drafting, revising, editing, reviewing, presenting, and reflecting.
- Communicate using style, language, and nonverbal cues appropriate to task, purpose, and audience.
- Use active and attentive communication skills, building on other's ideas to explore, learn, enjoy, argue, and exchange information.
- Monitor delivery and reception throughout the communication process and adjust approach and strategies as needed.
- Adjust speech, using standard English when indicated or appropriate, in a variety of contexts and tasks for presenting or participating in the social exchange of ideas.
- Acquire vocabulary from multiple forms of communication; use newly acquired vocabulary to appropriately communicate in a variety of situations and contexts.

*Additional information and elaboration of the Fundamentals will be included in a support document.*

## Reading – Literary Text (RL)

### Expectations for Teaching and Learning

*Learning should be modeled, supported, and reflect gradual release of responsibility at all levels.  
Teachers should continue to address earlier standards as they apply to more complex text.  
Students are expected to build upon and continue applying concepts learned previously.*

By the end of second grade, students read four major types of literary texts in print and multimedia formats: fiction, literary nonfiction, poetry, and drama. In the category of fiction, they read the following specific types of texts: historical fiction, contemporary realistic fiction, picture books, folktales, fables, tall tales, and fantasy. In the category of literary nonfiction, they read autobiographical and biographical sketches. In the category of poetry, they read narrative, lyrical, and humorous poems and free verse.

### Fundamentals of Reading

- Integrate an information (cueing) system that includes meaning (semantics), structure (syntax), visual (graphophonic), and pragmatics (schematic) to make meaning from text.
- Gain understanding by applying reading strategies of monitoring, searching, confirming, cross-checking, rereading, and self-correcting.
- Employ comprehension strategies before, during, and after reading text using schema, annotating, questioning, visualizing, drawing inferences, determining importance, summarizing, and synthesizing.
- Use metacognition to monitor meaning and adjust strategies while reading.
- Notice and analyze the styles and techniques authors use to help readers construct meaning.

Teaching in South Carolina is based on four major components: standards, curriculum, instruction, and assessment. Standards are year-end goals for student learning which inform and guide curriculum development, instructional practices, and assessment. Curriculum is developed based on standards. Instruction is the support teachers offer to navigate the curriculum that is also based on the standards. Formal and informal assessment, based on standards, guides and informs instruction.

### Strands

The *South Carolina College- and Career-Ready Standards for ELA 2015* include the following **Strands**:

- Inquiry - Based Literacy (**I**)
- Reading – Literary Text (**RL**)
- Reading – Informational Text (**RI**)
- Writing (**W**)
- Communication (**C**)

Each **Strand**, except Inquiry-Based Literacy, is supported by the **Key Ideas** listed below.

The Key Ideas in (**RL**) and (**RI**) are:

# Disciplinary Literacy

---

Reading, writing, communicating, thinking critically, and performing in meaningful, relevant ways within and across disciplines are essential practices for accessing and deeply understanding content. Immersion in the language and thinking processes of each discipline guides students to develop and cultivate a deeper understanding of particular disciplines.

College- and career-ready students must be able to expertly navigate curriculum, paying close attention to practices unique to a particular discipline. Disciplinary Literacy works in concert with Inquiry-Based Literacy Standards to prepare students for the demands of the 21<sup>st</sup> century. These practices also offer opportunities for students to demonstrate their understanding of the content in traditional and non-traditional ways.

The *South Carolina College- and Career-Ready Standards for English Language Arts 2015* include the Disciplinary Literacy practices listed below:

- **Read, write, and communicate using knowledge of a particular discipline.**
- **Integrate the Reading, Writing, and Communication Standards and the Inquiry-Based Literacy Standards to communicate and create understanding within content areas.**
- **Extend and deepen understanding of content through purposeful, authentic, real-world tasks to show understanding and integration of content within and across disciplines.**

# Reading – Literary Text (RL)

## Expectations for Teaching and Learning

*Learning should be modeled, supported, and reflect gradual release of responsibility at all levels.  
Teachers should continue to address earlier standards as they apply to more complex text.  
Students are expected to build upon and continue applying concepts learned previously.*

By the end of fifth grade, students read four major types of literary texts in print and multimedia formats: fiction, literary nonfiction, poetry, and drama. In the category of fiction, they read the following specific types of texts: chapter books, adventure stories, historical fiction, contemporary realistic fiction, science fiction, picture books, folktales, legends, tall tales, and myths. In the category of literary nonfiction, they read personal essays, autobiographical and biographical sketches, and speeches. In the category of poetry, they read narrative poems, lyrical poems, humorous poems, and free verse.

## Fundamentals of Reading

- Integrate an information (cueing) system that includes meaning (semantics), structure (syntax), visual (graphophonic), and pragmatics (schematic) to make meaning from text.
- Gain understanding by applying reading strategies of monitoring, searching, confirming, cross-checking, rereading and self-correcting.
- Employ comprehension strategies before, during, and after reading text using schema, annotating, questioning, visualizing, drawing inferences, determining importance, summarizing, and synthesizing.
- Use metacognition to monitor meaning and adjust strategies while reading.
- Notice and analyze the styles and techniques authors use to help readers construct meaning.

# Disciplinary Literacy

---

Reading, writing, communicating, thinking critically, and performing in meaningful, relevant ways within and across disciplines are essential practices for accessing and deeply understanding content. Immersion in the language and thinking processes by each discipline guides students to develop and cultivate a deeper understanding of particular disciplines.

College- and career-ready students must be able to expertly navigate curriculum, paying close attention to practices unique to a particular discipline. Disciplinary Literacy works in concert with Inquiry-Based Literacy Standards to prepare students for the demands of the 21<sup>st</sup> century. These practices also offer opportunities for students to demonstrate their understanding of the content in traditional and non-traditional ways.

The *South Carolina College- and Career-Ready Standards for English Language Arts 2015* include the Disciplinary Literacy practices listed below:

- **Read, write, and communicate using knowledge of a particular discipline.**
- **Integrate the Reading, Writing, and Communication Standards and the Inquiry-Based Literacy Standards to communicate and create understanding within content areas.**
- **Extend and deepen understanding of content through purposeful, authentic, real-world tasks to show understanding and integration of content within and across disciplines.**

# Reading – Literary Text

## Expectations for Teaching and Learning

*Learning should be modeled, supported, and reflect gradual release of responsibility at all levels.*

*Teachers should continue to address earlier standards as they apply to more complex text.*

*Students are expected to build upon and continue applying concepts learned previously.*

By the end of grade eight, students read four major types of literary texts in print and multimedia formats: fiction, literary nonfiction, poetry, and drama. In the category of fiction, they read the following specific types of texts: chapter books, adventure stories, historical fiction, contemporary realistic fiction, science fiction, folktales, tall tales, and myths. - Gain understanding by applying reading strategies of monitoring, searching, confirming, cross-checking, rereading and self-correcting.
- Employ comprehension strategies before, during, and after reading text using schema, annotating, questioning, visualizing, drawing inferences, determining importance, summarizing, and synthesizing.
- Use metacognition to monitor meaning and adjust strategies while reading.
- Notice and analyze the styles and techniques authors use to help readers construct meaning.

# Reading – Informational Text (RI)

## Expectations for Teaching and Learning

*Learning should be modeled, supported, and reflect gradual release of responsibility at all levels.  
Teachers should continue to address earlier standards as they apply to more complex text.  
Students are expected to build upon and continue applying concepts learned previously.*

By the end of grade eight, students read informational (expository/persuasive/argumentative) texts in multimedia formats of the following types: essays, historical documents, research reports, contracts, position statements, informational trade books, textbooks, news and feature articles, magazine articles, advertisements, encyclopedia entries, book, movie, or product reviews, journals, and speeches. They also read directions, schedules, and recipes embedded in informational texts. In addition, they examine commercials, documentaries, and other forms of multimedia informational texts.

## Fundamentals of Reading

- Integrate an information (cueing) system that includes meaning (semantics), structure (syntax), visual (graphophonic), and pragmatics (schematic) to make meaning from text.
- Gain understanding by applying reading strategies of monitoring, searching, confirming, cross-checking, rereading and self-correcting.
- Employ comprehension strategies before, during, and after reading text using schema, annotating, questioning, visualizing, drawing inferences, determining importance, summarizing, and synthesizing.
- Use metacognition to monitor meaning and adjust strategies while reading.
- Notice and analyze an author’s style and techniques to construct meaning.

# Disciplinary Literacy (DL)

---

Reading, writing, communicating, thinking critically, and performing in meaningful, relevant ways within and across disciplines are essential practices for accessing and deeply understanding content. Immersion in the language and thinking processes of each discipline guides students to develop and cultivate a deeper understanding of particular disciplines.

College- and career-ready students must be able to expertly navigate curriculum, paying close attention to practices unique to a particular discipline. Disciplinary Literacy works in concert with Inquiry-Based Literacy Standards to prepare students for the demands of the 21<sup>st</sup> century. These practices also offer opportunities for students to demonstrate their understanding of the content in traditional and non-traditional ways.

The *South Carolina College- and Career-Ready Standards for English Language Arts 2015* include the Disciplinary Literacy practices listed below:

- **Read, write, and communicate using knowledge of a particular discipline.**
- **Integrate the Reading, Writing, and Communication Standards and the Inquiry-Based Literacy Standards to communicate and create understanding within content areas.**
- **Extend and deepen understanding of content through purposeful, authentic, real-world tasks to show understanding and integration of content within and across disciplines.**

# Reading - Literary Text

## Expectations for Teaching and Learning

*Learning should be modeled, supported, and reflect gradual release of responsibility at all levels.  
Teachers should continue to address earlier standards as they apply to more complex text.  
Students are expected to build upon and continue applying concepts learned previously.*

By the end of English 4, students read four major types of literary texts in print and multimedia formats: fiction, literary nonfiction, poetry, and drama. In the category of fiction, they read the following specific types of texts: adventure stories, historical fiction, contemporary realistic fiction, myths, satires, parodies, allegories, and monologues. In the category of literary nonfiction, they read classical essays, memoirs, autobiographical and biographical sketches, and speeches. In the category of poetry, they read narrative poems, lyrical poems, humorous poems, free verse, odes, songs/ballads, and epics.

## Fundamentals of Reading

- Integrate an information (cueing) system that includes meaning (semantics), structure (syntax), visual (graphophonic), and pragmatics (schematic) to make meaning from text.
- Gain understanding by applying reading strategies of monitoring, searching, confirming, cross-checking, rereading and self-correcting.
- Employ comprehension strategies before, during, and after reading text using schema, annotating, questioning, visualizing, drawing inferences, determining importance, summarizing, and synthesizing.
- Use metacognition to monitor meaning and adjust strategies while reading.
- Notice and analyze the styles and techniques authors use to help readers construct meaning.

# Disciplinary Literacy (DL)

---

Reading, writing, communicating, thinking critically, and performing in meaningful, relevant ways within and across disciplines are essential practices for accessing and deeply understanding content. Immersion in the language and thinking processes of each discipline guides students to develop and cultivate a deeper understanding of particular disciplines.

College- and career-ready students must be able to expertly navigate curriculum, paying close attention to practices unique to a particular discipline. Disciplinary Literacy works in concert with Inquiry-Based Literacy Standards to prepare students for the demands of the 21<sup>st</sup> century. These practices also offer opportunities for students to demonstrate their understanding of the content in traditional and non-traditional ways.

The *South Carolina College- and Career-Ready Standards for English Language Arts 2015* include the Disciplinary Literacy practices listed below:

- **Read, write, and communicate using knowledge of a particular discipline.**
- **Integrate the Reading, Writing, and Communication Standards and the Inquiry-Based Literacy Standards to communicate and create understanding within content areas.**
- **Extend and deepen understanding of content through purposeful, authentic, real-world tasks to show understanding and integration of content within and across disciplines.**
